Uploading to Briner FTP site

Uploading to the Briner FTP site requires an FTP client application. If you do not have an FTP program installed on your computer you can download *Bulletproof FTP* from www.bpftp.com

The example below assumes you are using Bulletproof FTP, other programs may vary in appearance but will require the same settings.

Open the Bulletproof FTP application using its icon on the desktop or start menu.

In the box marked host under the toolbar, type: [ftp.briner.com.au](ftp://ftp.briner.com.au)

Click the Connect to FTP server button on the toolbar.

Commercial

Username: commercial
Password: commercial

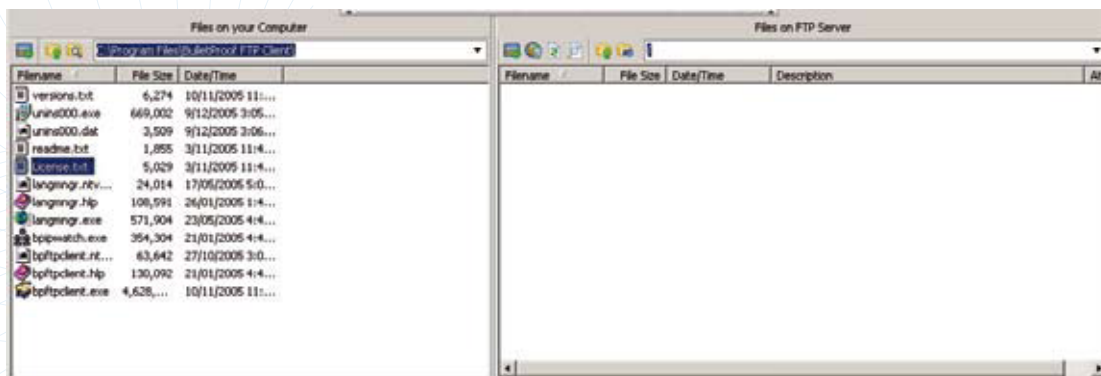

Real Estate

Username: realestate
Password: realestate

You will be connected to the Briner FTP site.

The program has two main sections, the left hand side shows your computer, the right hand side shows the Briner server.

To send a file from your computer to Briner, you first locate it in the left hand side. You then highlight it and select the Queue for upload button from above the selection.

To disconnect from the server, click the Disconnect icon on the toolbar.
